ardakersu@gmail.com

I'm an electronics and communication engineering student who enjoys both analog and digital system design as well as automation and I'm eager to enrich my knowledge on these fields. My strong suits are finding creative solutions, being a team worker and persistence.

## SKILLS

---

- C programming
- LTspice
- Analog circuit design
- Bash script coding
- ESP8266
- Sensor control and IoT system design with Arduino
- IoT system design with Raspberry Pi
- MATLAB
- Advanced English

## EDUCATION

---

Graduated 06/2017	<b>High School</b> , MEV Fen Lisesi – İzmir, Güzelbahçe
10/2017 - Present	<b>Electronics and Communication Engineering</b> , IZTECH – İzmir, Gülbahçe

## EXPERIENCE

---

01/2019 – 06/2019	<b>Information Technology Intern</b> , Teknopark İzmir – İzmir, Gülbahçe <ul style="list-style-type: none"><li>• Bash script coding</li><li>• IoT system design using Raspberry Pi</li></ul>
06/2019 – 08/2019	<b>Project Intern</b> , Teknopark İzmir – İzmir, Gülbahçe <ul style="list-style-type: none"><li>• IoT system design using Wemos, Arduino and ESP8266</li><li>• Hands-on experience on circuit board building</li><li>• Software debugging</li></ul>

## ADDITIONAL

---

- 3<sup>rd</sup> place in national championship in gymnastics as a team
- 2 times 1<sup>st</sup> place in local championship in gymnastics as a team
- Professional electric guitar player
- DIY electronics hobbyist
- 4 months of experience as math teacher
- Assisted as a teacher in a 3-week Arduino course
